

## **Special 2006 Post-Season Rules for CCMS Pure Stock, SAS Road Runner and THR Hobby Stock Cars**

### **San Antonio Speedway Road Runner Cars**

Must follow all 2006 SAS Road Runner rules with the following exceptions:

Total weight after race will be a minimum of 3375 pounds

Maximum 55% left side weight.

4412 Holley (500cfm) is optional but must be run with a carburetor spacer of not more than 1.250-inch in height, including gaskets. The holes in the spacer must be the same dimensions from top to bottom of opening (no tapered hole spacers.)

### **Thunder Hill Raceway Hobby Stock Cars**

Must follow all 2006 THR Hobby Stock rules with the following exceptions:

Total weight after race will be a minimum of 3450 pounds

Maximum 55% left side weight

### **Corpus Christi Motor Speedway Pure Stock Cars**

**Option 1** - Must follow all 2006 CCMS Pure Stock rules with no exceptions

**Option 2** - Must follow all 2006 CCMS Pure Stock rules with the following exceptions:

Total weight after race will be a minimum of 3375 pounds

Maximum 55% left side weight.

The Hoosier 790 (7-inch) tire is permitted as long as the Holley 4412 carburetor is used. 4412 Holley (500cfm) is optional but must be run with a carburetor spacer of not more than 1.250-inch in height, including gaskets. The holes in the spacer must be the same dimensions from top to bottom of opening (no tapered hole spacers.)

### **No Hybrids**

Note: All teams must declare what track rules they are running and must comply with those rules and the exceptions listed above. No hybrids or mixing of tracks/options.

### **Official Rulings**

Decisions and rules interpretations by Race Officials are final. No equipment should be considered as approved if not detected in technical inspections.

### **Contact Information**

If you have questions regarding these Special Post Season Rules as applied to a particular event, contact the official of the host track.
